TOTALS:

Printed 148 of the 148 records.

PRIMARY SORT FIELD: Location\_Cty

ELECTION CRITERIA:

11 records

Topographic position: Valley slope   
 Flood plain  wet lowlands  ridge/  
 hilltop/knoll  lakeside/pondside   
 stream/river confluence  not ob-  
 vious  other

Cover type: pasture  mixed woodland   
 coniferous  deciduous  meadow  plowed  
 field  type of crop \_\_\_\_\_ fallow   
 brush  swamp  lawn  bare & disturbed   
 other

Slope: Level  gentle  moderately  
 steep  steep  other   
 elevation of site: \_\_\_\_\_  
 SCS soil type: \_\_\_\_\_

Degree of slope: A(0-5%)  B(5-12%)   
 C(12-30%)  D(30-50%)  E(>50%)  direction  
 of exposure \_\_\_\_\_  
 ph: \_\_\_\_\_

Stratum: A(primary drainage)  B(secondary drainage, upland)  C(secondary drain-  
 age, lowland)  D(undissected upland)  E(undissected lowland)  F(lacustrine)   
 G(swamp)

Nearest reliable water resource: unknown  river  stream  intermittent stream   
 lake  pond  stream  spring  swamp  other  Distance to reliable  
 water source: 200 feet  
 Describe nearest water source as to reliability and navigability:

*Waits River - at the falls. Reliable but not  
 navigable.*

Name of nearest water source: *Waits River*

Drainage system affiliation:

Subject to flooding: Yes  No  Unknown

Evidence of site: Surface observations  road cut  stream/river bank profile   
 cultivated / plowed field  subsurface testing  level at which site was found  
 other  *presumed to be there* on transect  off transect  stp yes  no   
 Additional reports of site: landowner  collector  archival  state register   
 other \_\_\_\_\_ Name/Address of informant: *John A. Fatherley*

*Bradford, Vermont 05033*

Primary land use at site: unknown  agricultural  residential  commercial/indus-  
 trial  recreational  other  *wood land*

Site owner at latest report: unknown  municipal  county  state  federal   
 private

Landowner's attitude toward archeology/site/further testing:

Threats to site: extreme  moderate  low  immediate  future  nature of threat:

Condition of site: Undisturbed  partially disturbed  destroyed  under culti-  
 vation  eroded  pot-hunted  undergoing or threatened by destruction or damage  
 due to: erosion  land development  urban expansion  pot-hunters  *unknown*

Dimensions of site (from surface; from subsurface testing): 10'x10' (ball park)

Greatest depth at which artifactual materials found: unknown

Cultural materials present (include specific types and frequencies of each; types and frequencies of raw materials; relative densities; area(s) of artifact concentration; illustrate on separate map; give densities per  $\text{xm}^2$ ; differentiate between surface and subsurface):

Previous collections: yes  no  Location of collection(s):

Cultural Affiliation: Undefined prehistoric  Paleo-Indian  Archaic  Woodland   
 Contact  17th Century  18th Century  19th Century  20th Century  Unknown   
 Reference or documentation:

1857 lithograph of Bradford  
 Village

Evaluation: On the National Register  recommended for nomination to the National Register  recommended for inclusion in a National Register District  Test excavation needed  minimal importance or heavily disturbed

Action needed or recommended: preserve  salvage  urgent  not urgent   
 When \_\_\_\_\_ test  none  other  locate + excavate  
 Additional testing: Date(s) Conducted \_\_\_\_\_
